## The new face of perfumes

More than five years ago, when FM GROUP Poland was created, we used the name FM by Federico Mahora. Our aim for our brand was to be associated with elegance and value. We wanted it to be of the highest rank, as it deserved to be. Since then FM Group managed to dominate almost the whole world. It is present in more than 50 countries on every continent. To emphasise this success we have decided to return to the name FM by Federico Mahora and we have assigned it to every perfume product of our company. In this catalogue you will find the refreshed name on all perfume flasks and boxes.

It is not the only novelty you will find in our catalogue. The Luxury Collection will delight you with exceptional shaped bottles and sophisticated boxes. New fashionable fragrances appear in the Luxury Collection for women and men and also in the Classic Collection. Charming scent of freesia, ylang-ylang flowers, spicy scent of ginger and pink pepper – these are just a few of the new notes in the wide palette of fragrances, which we believe will captivate your heart.

I wish you the very best in successful shopping.

Artur Trawiński,  
FM GROUP World

Pheromones are odourless substances for non-verbal communication. They work on our subconscious, increasing attraction and self confidence and simplifying interpersonal contacts. It is worth using pheromones before a date or any other important meeting. When you need to make a good impression – use pheromones.
